

# Gasket Set - for S3 devices (S3-GASKET-IP55)

The Gasket Set (S3-GASKET-IP55) is supplied in pack of 10. There are two gaskets used from the 'Gasket set', which are fitted to a Deep Backbox moulding of an S3 device to provide IP55 protection.

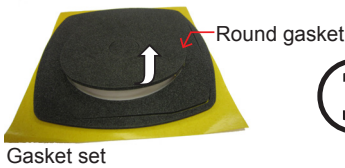

**1** Peel off the outer 'Rim gasket' from the backing of a 'Gasket set', as shown.

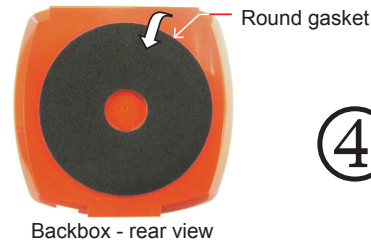

**2** Position the sticky side of the 'Rim gasket' into the Deep Backbox as shown and then press it down to ensure it adheres to the moulding.

Position the outer edge of gasket close to the inner wall of the moulding.

**3** Peel off the 'Round gasket' from the backing of a 'Gasket set' and remove the central cutout.

**4** Centrally position the sticky side of the 'Round gasket' onto the rear side of a Deep Backbox as shown. Press the gasket down to ensure it adheres to the moulding.

**5** The Deep Backbox with the gasket fitted can now be used to install an S-Cubed (S3) device in an area requiring IP55 protection.

At the end of their useful life, the packaging, product and batteries should be disposed of via a suitable recycling centre and in accordance with national or local legislation.

**WEEE Directive:**  
At the end of their useful life, the packaging, product and batteries should be disposed of via a suitable recycling centre. Do not dispose of with your normal household waste. Do not burn.
